

## Jumper roll up instructions

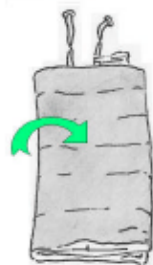

1. Turn fan off, open the tubes. Move vinyl around so it is not bunched up.

2. Fold the ONE SIDE over in half. The seam should go to the middle of the unit.

3. Fold the other side over toward the middle. There should be about a 6"-8" gap between the two seams. Tuck the vinyl ends inside. (Not the tubes yet).

4. Fold entire length over again. Walk on unit (WITHOUT SHOES) to flatten before rolling.

5. Begin the roll OPPOSITE the tubes. Roll as tightly as possible.

6. When finished rolling, tuck tubes and extra vinyl into end of unit.

7. Strap the roll. Finished roll should look like this.

8. Stand unit on end, slide bag over top and turn unit Over to close off bag by rope provided.
