

1. Turn fan off, open tubes. Move vinyl around so it is not bunched up.

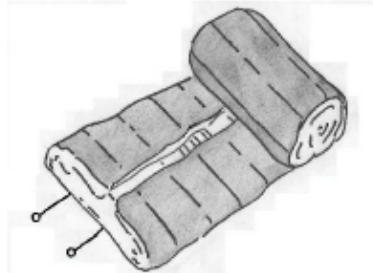

2. Fold over one side to the center of unit. DO NOT WALK ON UNIT W/ SHOES.

3. Fold other side over to center so seams touch. WITHOUT SHOES ON, walk on unit to flatten and get all air out before rolling.

## Slide Roll Up Instructions

4. Begin rolling from the far end (where the kids exit after sliding down) and roll tightly to the end where the kids enter.

5. Tuck any loose vinyl inside roll and STRAP INFLATABLE with the two straps provided.

6. WITH UNIT STRAPPED, stand up on end as shown and place bag over inflatable. Tie off and secure before transporting.

**Remember to bring back the: Cord, Nails in bag, blower, and tarp.**
